OUR EVOLUTION

We believe that Bitcoin and blockchain networks are landmark innovations that will fundamentally reshape the global financial system, and investors should be able to participate in this transformation.

Auto Trade Function

Your hardware is already running

Don't wrestle with rig assembly and hot, noisy miners at home. We have the fastest bitcoin mining hardware running for you already!

Mine alternative cryptocurrencies

You can mine any cryptocurrency available in our catalogue! Switch your mining power on the fly for all the coins using our bitcoin mining website.

Get your first mining output today

You will get periodic mining outputs to your designated wallet. Try our Bitcoin mining platform now!

Who we are

IT'S SUPER SIMPLE

Join over 2.000.000 people

Your mining rigs are already set up and running. As soon as you've set up your account, you can start to mine your first coins using our Bitcoin cloud mining service!

Rukeshvarman R CHELLIAH
CEO & Shareholder

The powerful idea behind Bitcoin and mining.

We are uniting all key aspects of running an efficient cryptocurrency mining operation. From building highly efficient data centers to providing a streamlined mining system for our users.

DAILY MINING OUTPUTS

Your mining outputs will be added to your account daily and automatically

STATE OF THE ART MINING TECHNOLOGY

State of the Art Mining Technology For every blockchain algorithm that we offer, we're providing some of the highest performing mining systems that exist

DIVERSE MINING PORTFOLIO

Choose from 6 major mining algorithms that span over 10+ mineable cryptocurrencies

FREEDOM OF ALLOCATION

Allocate your hash power to other cryptocurrencies within your mining algorithm of choice

INTUITIVE DASHBOARD ALL THE CRYPTO MINING DATA AND CHARTS THAT YOU NEED, WHEN YOU NEED THEM

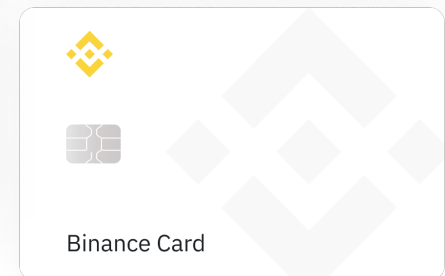

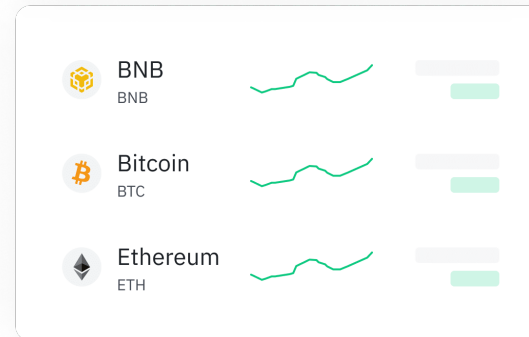

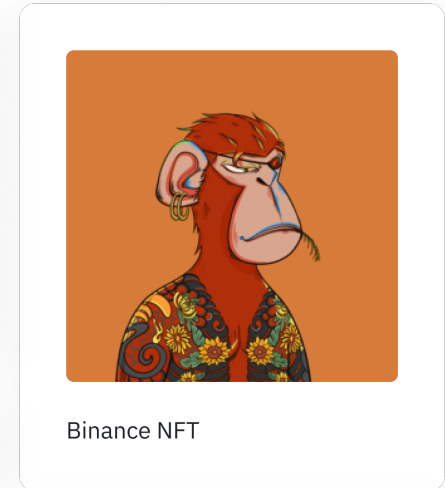

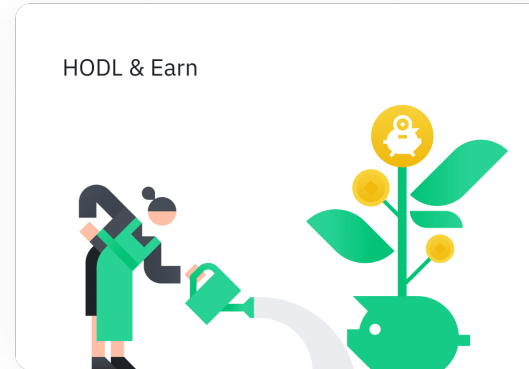

All the crypto mining data and charts that you need, when you need them

SECURE & PRIVATE

We support cryptocurrencies that promote privacy, so we strive to keep collected user data to a minimum and only ask for information that is mandatory from a regulatory perspective

MINING RIG SALES

WHAT WE DO

Our mission

The story of Havin Trust Mining started at the end of 2013. Our founders got to know each other by using the same platform for buying and selling Bitcoins. They were fascinated by the technology and wanted to build their own farm, only to realize all their friends wanted to participate as well.

They came up with the idea of mining as a service and built the first mining farm in Eastern Europe. Since our founding, we have grown tremendously and a lot has happened, but one thing remains constant: We are all strong believers in the future of digital currencies and we love being part of this growing community.

Johnson R CHELLIAH
CEO & Shareholder

Perfect for connecting the world together

Servicing over 2.000.000 customers from 100+ countries.

Offering 10+ minable cryptocurrencies through 6 major mining algorithms.

Conducted over 100 million transactions since our founding in 2013

OUR RESEARCH

Making mining accessible to everyone

Havin Trust Mining is one of the leading hashpower providers in the world, offering cryptocurrency mining capacities in every range - for newcomers, interested home miners, as well as large scale investors. Our mission is to make acquiring cryptocurrencies easy and fast for everyone. We provide a multi-algorithm, multi-coin cloud mining service using the latest technology - without any pool fees. The ultimate goal of our existence is to make cryptocurrency mining an easy, smart and rewarding experience for all. Our services already attracted more than 2.000.000 people - We'd be happy to serve you as well!

DAILY FOR 8 DAYS

- + Minimum deposit: \$10,000
- + Maximum deposit: \$1,000,000
- + No tax deductions
- + Financial planning session

Millions of transactions are made each day using blockchain technology and this number is growing fast. The increasing popularity of crypto technology has caused a surge in blockchains, each with their unique approach towards transactions and privacy. Transactions are made directly between sender and receiver, at very low cost, anonymous and without oversight. At Whale Alert we track these transactions made on various blockchains, convert them into a single standard format and store them in our databases.

Our databases contain thousands of known addresses of individuals, exchanges and companies and we are constantly adding and updating both manually and with the help of AI. Our tracking software is able to instantly identify transactions made to and from known and associated addresses and by doing such, removes anonymity and adds intention for a significant part of the crypto world, especially exchanges.

The team has many years of software development experience in both business and finance. Our team is constantly working on adding more blockchains and improving attribution, data storage and reliability and through our experience and expertise we have been able to create one of the largest and most reliable crypto data collection systems in the world.

INVESTMENT BANKING

HARVESTING DEEP EXPERTISE TO DELIVER HIGH-QUALITY MERGERS AND ACQUISITIONS (M&A) AND PRIVATE EQUITY (PE) ADVISORY SERVICES

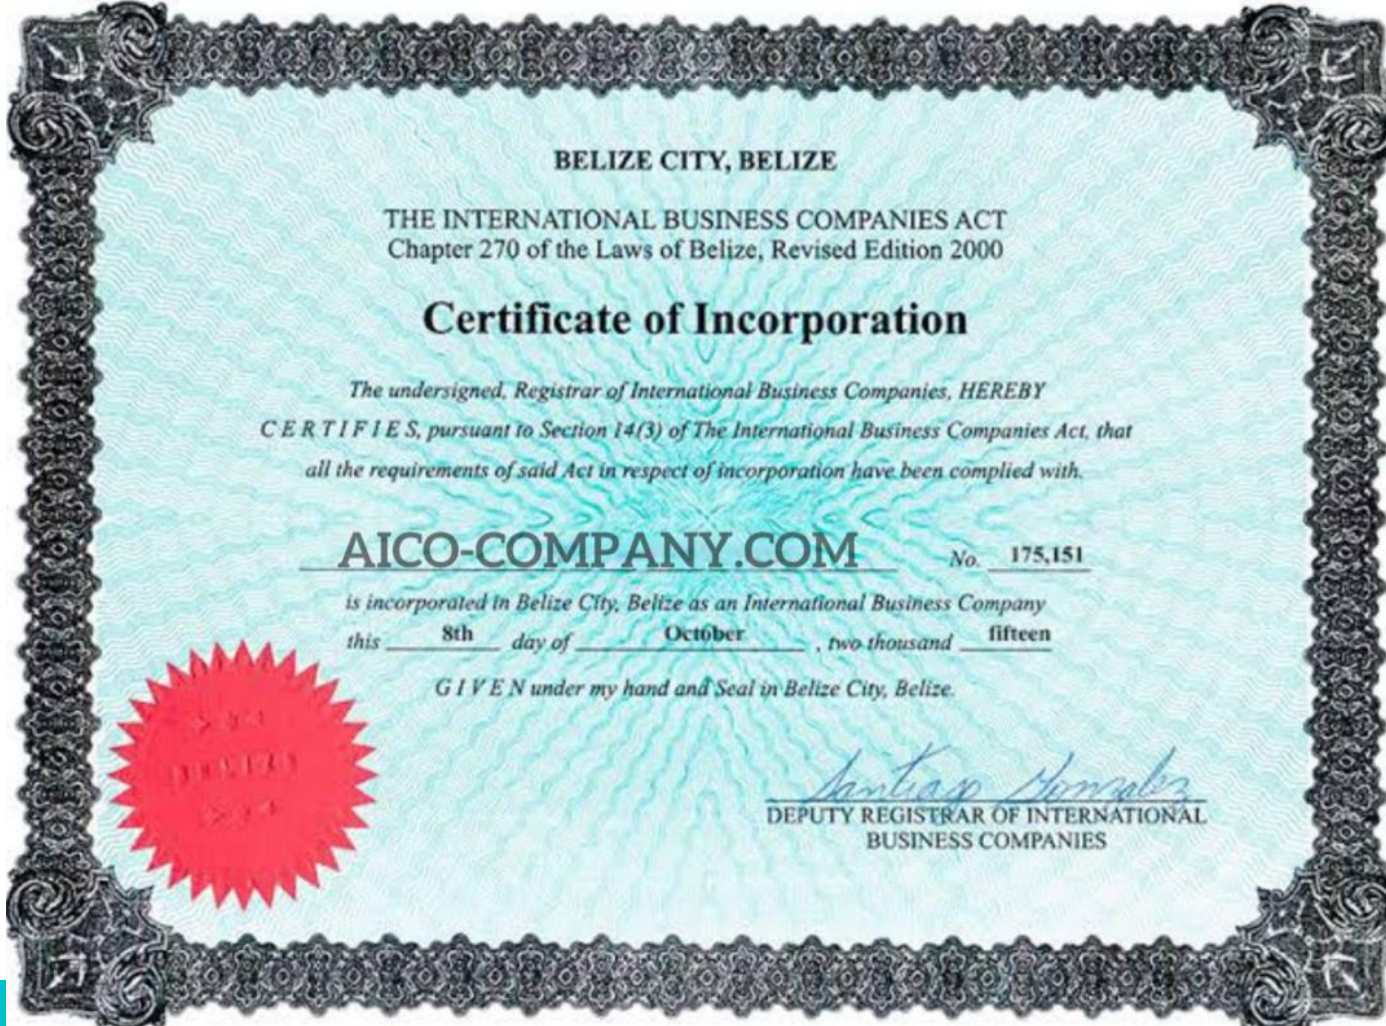

We make mining competitive. To mine competitively today, you need to invest significant resources, time and effort into your setup. Our team has built the most efficient mining systems to do the job for you. This way you can fully focus on keeping track of the markets and remain competitive with your mining rewards.

Besides being the portal for interesting mining data, we are also actively contributing to the cryptocurrency ecosystem, from launching awareness campaigns to releasing open-source mining software.

Multi-algorithm support. We are building mining data centers around the world that are able to support 6 mining algorithms for 10+ different cryptocurrencies. If that's not enough, we'd be happy to also support the ones you want to mine!

Certification

Your most important asset is yourself. Invest your time, you effort and money in the education, training and support of their most important asset.
